The Headaches is the favorite sign by which nature makes known any deviation what ver from the natural state of the brain, and viewed in this light it may be looked on as a sale guard intended to give notice of disease which might otherwise escape attention, till too late to be rounded, and its indications should never be neglected. Headache is exceedingly common and is the precursor of a great variety of disease. A mong which are a still rendered fittal by this taint in the system. Most of the consumption which decimates the human family has its origin directly of the sease. In its nervous form it is symptomatically and the patients of the bowels, as well as venal and uterine affections.—Diseases of the heart are very frequently strended with Headaches; Angenia and plethora are also their headaches; Angenia and plethora are also their headaches; as so very common, being usually distinguished by the name of nervous form the system we must renovate the blood by an alterative medicine, and indications which frequently occasion bendache. For the treatment of either class of Headache the Cephelic Pills have been found a sure and safe tremedy, relieving the most acute pains in a few minutes, and by its subtle power evadicating the discarder from the blood, and the rescue of the system from its destructive consequences, there it is destructive consequences, there is the unerring index.

Burner — Missus wants you to send her a box of Caphalic Glue, no, aboutle of Preparet Pills,—but I'm thinking that's not just a naither, but perhaps ye'll be afther knowing what it is. Ye see she's nigh dead and gone with the Sick Headache, and wants some more of that same as relaived her before. Druggist - You must mean Spalding's Cephalic

Constipation or Costiveness.

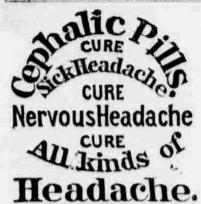

Noone of the "many ills flesh is heir to" is so prevalent, so little understood, and so much neglected as Costiveness. Often originating in care-lessness, or sedentury habits; it is regarded as a alight disorder of too little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dengerors disease, and unless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendent are Headacho, C. the Rheumarism, Foul Breath, Piles and others of like nature, while a long train of frightful diseases such as Malignant Fevers, Aboesses, Dysentary, Diarrhox, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypechondriasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the deceases named originate in Constipation, but take on an independent existence unless the cause is cradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no anxiety, while in reality it is the precursor an immediate attention whenever it occurs, and no person should neglect to get a lox of Cephalic Pills on the first appearance of the complaint, as their timely use will expel the insiduous approach-

Twenty Millions or Dollars saven — M Spalding has sold two millions of bottles of his collaborated Prepared Glise and it is estimated that each bottle saves at least ten dollars worth of broken furniture, thus making an aggregate of twenty millions of dollars reclaimed from total loss by this valuable invention. Having made his Glue a household word, he now proposes to do the world still greater service by curing all the aching heads with his Cephalic Pills, and if they are as good as his Glue, Headaches will soon vanish away like snow in July.

67 Over excitement, and the mental care and 6.7 Over EXCITEMENT, and the mental care and anxiety incident to close attention to business or study, are among the numerous causes of Norvous Headsche. The disordered state of mind and body incident to this distressing complaint is a fatal blow to all energy and ambition. Sufferers by this disorder can always obtain speedy relief from these distressing attacks by using one of the Cephate Pills whenever the symptoms appear. It quiets the overtasked brain, and soothes the strained and decrease the symptoms of the contraction of the contrac jarring nerves, and relaxes the tension of the stomach which always accompanies and aggra-vates the disordered condition of the brain.

Fact worth Roowing -- Spalding's Cephalic Pills are a certain cure for Sick Headache, Bilious Headache, Nervous Headache, Costweness and General Debility.

GREAT Discovery - Among the most important of all the great medical discoveries of this age may be considered the system of vaccination for protection from Small Pax, the Cophalic Pill for relief of Herdache, and the use of Quinine for the prevention of Fevers, either of which is a sure specific, whose benefits will be experienced by suf-fering humanity long after their discoverers are

The amandamentor of Languages.—There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a welle to incorporate them into our own thus the word Cephalic, which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spaiding s great Headache remedy, but it will soon be used in more general way, and the word Cephalic will become as common as Electrotype and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor born." over be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon

Its effects commence by deposition from the blood of corrupt or alecrous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and or the surface, cruptions or notes. It is combeen discovered for the expurgation of this foul disorder from the blood, and the rescue of the not only Scrofula, but also those other affections which arise from it, such as Enurriva and Skin Diseases, St. Anthony's Fire, Rose, or Envirence, Pindles, Postules, Blotches, Blains and Boils, Tumons, Tetter and SALT RHEUR, SCALD HEAD, RINGWORM, RHEUMATISM, SVERILLITIC and MERCURIAL DIS-EASES, DROPSY, DYSPERSIA, DEBILITY, and, indeed, all Complaints arising from Vitia THE OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaya-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Elious Headache, and Billous Fevers, Indeed for the whole class of diseases originat-ing in billary derangement, caused by the Malaria of Miasmatic Countries.

We are enabled here to offer the community remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Curk" expels the missmatic poison of Faven And Adur from the system, and prevents the development of the disease, if taken on the first apmmediate attention whenever it occurs, and no person should neglect to get a box of Cephalic Pills on the first appearance of the comptaint, as their timely use will expel the insiduous approaches of disease and destroy this dangerous fee to human life.

A Real Blessing.

Physician.—Well, Mrs. Jones, how is that headache!

Mrs. Jones.—Gone! Doctor, all gone! the pill you sent cured me in just twenty minutes, an I twish you would send more so that I can have them handly.

Physician.—You can get them at any Druggists. Call for Cephalic Pills. I find they never fail, and I recommend them in all cases of Ilendache.

Mrs. Jones.—I shall send for a box directly, and shall tell all my suffering friends, for they are a real blessing.

originating in this cause, put on the interintent type, or become periodical. This "Cene" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protecmittents if they avail themselves of the protection this remedy affords,
